WORK HISTORY

Sock Club Enterprises LLC

Full Stack Marketing Developer

Austin, Texas
Apr 2020 – present

- Responsible for developing the new client portal and automating company processes to support the sales and marketing departments

Sock Club Enterprises LLC

Full Stack Marketing Developer Intern

Austin, Texas
Jan 2020 – Apr 2020

RECENT PROJECTS

Sock Club Left/Right Pairing Cart Item

order.sockclub.com

- Created the ability to add cart items with individual designs for each sock orientation instead of per sock pair
- Developed front-end web pages using ruby on rails, JavaScript, bootstrap, sass, jQuery, and Ajax
- Updated the backend processes to account for the new cart item data and cart functionalities using pgAdmin 4, PostgreSQL and restful design

Sock Club Design Mockup Creation Tool

order.sockclub.com

- Automated specific design processes including the ability to add and edit tipping stripes, map a design bitmap to a sock cuff, and compare client colors to company yarn colors
- Designed front-end web pages for each feature using ruby on rails, JavaScript, bootstrap, sass and jQuery to dynamically visualize the changes in design

Sock Club Sales Quoting Tool

order.sockclub.com

- Designed a sales quoting tool that calculates product and shipping price estimates and converts them into customized pdf invoices
- Built quote tool by using Prawn pdf gem, creating dynamic forms with JavaScript/jQuery, updating legacy pricing code and writing restful API calls to the shipping API ShipStation. Front-end built with bootstrap/sass.
- Built an upsell feature that optionally calculates the next price break for existing pricing estimates
- Built an overseas feature that optionally converts eligible quote products to their overseas counterpart, and calculates the new price estimates and shipping costs

React Recipes

<https://christinaqtruong.github.io/reactrecipes>

- A recipe search engine created using react, react-bootstrap, react state and a recipe search API called Edamam.

Portfolio Website

<https://christinaqtruong.github.io/>

- A vanilla html portfolio website created using bootstrap, jQuery, JavaScript and CSS3.
